Satrix Information Security Limited Announces Strategic Partnership with CrowdStrike as Official Indirect Reseller Partner for India

Ahmedabad, January 07, 2026: Satrix Information Security Limited (SATTRIX) BSE: 544189, ISIN: INE0QUV01010, a leading provider of innovative cybersecurity solutions and managed services, today announced its successful onboarding onto the CrowdStrike Reseller partnership for the Indian market.

By joining the CrowdStrike, Satrix expands its robust security portfolio with the industry-leading AI-native CrowdStrike Falcon platform. This partnership enables Satrix to use its delivery and solutioning expertise into Cybersecurity space to its customer by providing more integrated solution and managed services around it.

Strengthening Cybersecurity for the Indian Market

As a Reseller Partner, Satrix will leverage the CrowdStrike Partner echo system and its own SOC/Managed Service environment to seamlessly manage, provision, and scale cybersecurity deployments for its customers. The move aligns with Satrix's mission to provide comprehensive, proactive defense mechanisms that prevent breaches before they occur.

Key Highlights of the Partnership:

- **Platform-Driven Security:** Access to the full suite of CrowdStrike Falcon® modules, ensuring a unified approach to security rather than fragmented point solutions.
- **Enhanced Threat Intelligence:** Integration of CrowdStrike's world-class threat intelligence to provide actionable insights for Indian enterprises.
- **Operational Efficiency:** Utilizing the CrowdStrike portal as a platform to streamline license management and service delivery through SOC and managed services operations.
- **Local Expertise, Global Technology:** Combining Satrix's deep understanding of the Indian regulatory and security landscape with CrowdStrike's global leadership in cloud-native security.

The Partnership as part of its commitment to delivering world-class security, Satrix Information Security is proud to announce its onboarding as a Reseller Partner for CrowdStrike in India. CrowdStrike, a recognized leader in the cybersecurity industry, is renowned for its innovative approach to threat detection and its pivotal role in mitigating high-profile global incidents, such as the SolarWinds hack.

"Our successful onboarding as a CrowdStrike partner, marks a strategic move towards our journey to providing best of the solutions and services to our our customers" said Sachhin Gajjaer, Managing Director of Satrix. "By integrating CrowdStrike's industry-leading Falcon platform into our service delivery model, we are empowering Indian businesses with lightning-fast detection and automated response capabilities to stay ahead of sophisticated adversaries."

Market Leadership CrowdStrike (NASDAQ: CRWD) has seen rapid global adoption since its 2019 IPO, now serving over 23,000 subscribers. Consistently recognized as a leader by Gartner and Forrester, their cloud-native platform aligns perfectly with Satrix's mission to provide cutting-edge, AI-powered security operations.

About Satrix Information Security Limited:

Satrix Information Security Limited, founded in 2013, is a globally trusted cybersecurity solutions provider offering end-to-end, customer-centric services across India, the USA, the Middle East, and Malaysia. With over a decade of experience, Satrix delivers agile, cloud-based and on-premise solutions that help enterprises protect digital assets, ensure compliance, and maintain business continuity. Rooted in the mission "Removing the Risk from the Universe," the name Satrix—derived from Sat (Universe), Ri (Risk), and X (Extenuation)—reflects our commitment to eliminating cybersecurity threats. Combining cuttingedge technology with deep expertise, we stand as a future-ready partner in today's evolving digital landscape. For more information, please visit: www.satrix.com.

About CrowdStrike:

CrowdStrike (NASDAQ: CRWD) is a global cybersecurity leader that has redefined modern security with the CrowdStrike Falcon® platform, the world's most advanced cloud-native solution. The platform protects critical areas of enterprise risk including endpoints, cloud workloads, identity, and data—by leveraging artificial intelligence (AI) and machine learning to detect and prevent threats in real-time. Headquartered in the U.S. and founded in 2011, CrowdStrike serves over 23,000 subscribers globally, ranging from small businesses to large enterprises and government agencies. Consistently recognized as a category leader by analysts such as Gartner and Forrester, CrowdStrike remains at the forefront of threat intelligence, endpoint protection, and incident response services. For more information, please visit: www.crowdstrike.com.
